Mean and variance of a random variable

✓ **Reading:** Mean and variance of a random variable 10 min

✓ **Video:** 4.03 The mean of a random variable 4 min

✓ **Video:** 4.04 Variance of a random variable 6 min

The normal distribution

✓ **Reading:** The normal distribution 10 min

✓ **Video:** 4.05 Functional form of the normal distribution 6 min

✓ **Video:** 4.06 The normal distribution: probability calculations 5 min

✓ **Video:** 4.07 The standard normal distribution 8 min

Basic Statistics - week 1

Probability distribution

Random variable \rightarrow randomness due to chance
PS relevant

Random variable

discrete

countable number
of distinct values

e.g.

0/1/2/3

continuous

infinite number of
possible values

e.g.
height

3.145

random variable.

↓
probability distribution

↓
discrete

↓
probability mass

function

↓
continuous

↓
probability density

function

Cumulative probability distributions:

- basic probability rules
- Probability distribution

↓

cumulative

Probability distribution.

↓

make probability statements

— the mean of a random variable.

Probability distribution

↓
start to make calculation
↓

DAILY ASSESSMENT FORMAT

Date:	22-07-2020	Name:	BINDUSHRI
Course:	Speak English professionally- coursera	USN:	4AL17EC011
Topic:	Week-5	Semester & Section:	6th Asec

AFTERNOON SESSION DETAILS(2.00pm to 5.00pm)

21/07/2020 - week 5

Speak English Professionally

organizing your pitch

1. organizing a pitch
2. delivering a pitch

3 TELLS

1. TELL what
2. TELL MORE
3. TELL IT AGAIN.

→ Preview product clearly

2nd TELL.

what is product do?

why is the product to?

→ provide evidence for product.
- fact & figure.

3rd TELL

- REPEAT main products

Stress & Intonation

- word stress - helps others to understand

- Elevator speech

- video conference language

- Phone talk

- Interview Q&A

- Presentation prep.

```
from google.colab import drive
drive.mount('/content/drive')
#Python Program to count the number of lines in a text file.
file = '/content/drive/My Drive/doc.txt'
num_lines = 0
with open(file, 'r') as f:
    for line in f:
        num_lines += 1
print("Number of lines:")
print(num_lines)
```

Drive already mounted at /content/drive; to attempt to forcibly remount, call drive.mount() with force=True.

Number of lines:
2

Words in a text file

Python

empty list

my_list = []

list of integers

my_list = [1, 2, 3]

list with mixed datatypes

my_list = [1, 'hello', 3.4]

~~# mixed list~~

~~my_list =~~

~~# list index~~

my_list = ['p', 'r', 'o', 'b', 'e']

print(my_list[0])

output: p

How to slice lists in python?

my_list = ['p', 'r', 'o', 'g', 'r', 'a', 'm', 'i', 'n', 'g']

print(my_list[2:5])

o/p ['o', 'g', 'r']

odd = [1, 3, 5]

odd.append(7)

print(odd)

output: [1, 3, 5, 7]

odd.extend([9, 11, 13])

print(odd)

output [1, 3, 5, 7, 9, 11, 13]

odd = [1, 3, 5]

print(odd + [9, 7, 5])

output: [1, 3, 5, 9, 7, 5]

my_list = ['p', 'r', 'o', 'b', 'l', 'e', 'm']

my_list.remove('p')

print(my_list)

What is tuple?

In python programming, a tuple is similar to a list. - the difference b/w the two is that we cannot change the elements of a tuple once it is assigned whereas in a list, elements can be changed.

~~A Sequence~~

Sequence Types

1. Tuple
